THE PREMISES _____

THE NET PROFIT SUM INSURED: R _____

DEFINITIONS

1. Net profit shall mean the net trading profit (excluding all capital receipts and accretions and all outlay properly chargeable to capital) resulting from the business of the insured at the premises after due provision has been made for all standing and other charges including depreciation, but before the deduction of any taxation chargeable on profits. The insurance under this item is limited to loss of net profit due to

(a) reduction in turnover and (b) increase in cost of working

Increase in cost of working is the additional expenditure necessarily and reasonably incurred for the sole purpose of avoiding or reducing the loss of net profit which, but for that expenditure, would have taken place during the indemnity period as a result of the damage, but not exceeding the amount of the loss of net profit thereby avoided less any sum saved during the indemnity period.

2. The amount payable in terms of a claim shall be proportionately reduced if the sum insured in respect of net profit is less than the annual net profit where the maximum indemnity period is 12 months or less, or the appropriate multiple of the annual net profit where the maximum indemnity period exceeds 12 months.

3. Indemnity Period shall mean the period beginning with the date of the damage and ending not later than the number of months stated in the schedule during which the results of the business are affected by the damage.
